**ONDRUP LEON**, thanking the citizens of Bangor for their liberal patronage heretofore, has the honor to announce that the third of his **FRENCH NOTIFIQUE** will commence on the 1st of May next, if a sufficient number of pupils can be obtained. His intention in opening a French Institute in this city is to give to the French spoken in this country the French Language thoroughly, 1st by giving lessons a greater part of time to the same pupils 2d, by being present, for only two lessons each week, during one year, for only twelve Dollars, the sum which is generally demanded for one term of twenty four lessons.

Parents desirous of having their children instructed in French and all those who are desirous of speaking French language as to be able to read, and write it, whether in commerce and domestic life, will do well to avail themselves of this opportunity. As many classes will be formed as the number of pupils requires. There will be a Japanese class, and a class of French and English will meet every Wednesday and Saturday at 7 P. M.

A French lady for ladies who wish to improve their knowledge in speaking the French language will also be formed. Not a word of English will be spoken. The subject of the course of the French Authors, conversations on French Literature and other interesting subjects will be the principal exercises of the lessons. All those who attend may feel certain that they will be enabled to use with propriety what they shall have learned during the year.

Tuition—Twelve Dollars per annum one half to attend in advance—Two lessons will be given free of charge. Vacation from the 1st of August, six weeks.

After the last of May no persons will be admitted on the above terms, but those who have leisure to commence on the 1st of May can by enrolling themselves at the above time, become members of the French Institute and then attend at time within the year. Those wishing to join Institute will please leave their names at Monahan's room No. 74 Main Street previous to the 15th of April.

**LATES' AND BES' PATENT**  
 —IMPROVED—  
**Patent Bedstead.**

THE Subscribers have purchased the right of manufacturing and reading **HINKLEY'S IMPROVED PATENT BEDSTEAD** for the city of Bangor.

This improvement is simple in its construction and consists in furnishing a substantial Bottom to Bedsteads which shall be elastic and have all the advantages of a **Blut, or Sacking Bedstead**, while at the same time, it serves to secure the posts and rails compactly together, without other aid. It can be fitted to any Bedstead, *old or new*, with much less time and labor than is required to put in a cord and when fitted, gives great strength and support, and keeps the bedstead in proper shape. It is an obvious doubtless that this simple improvement will show how much the place of every other method now in use. We can confidently recommend the above improvement to our customers and we desire to convince them of its great substantial and useful Patent Bedstead ever invented.

The Public are respectfully invited to call and see for themselves
